

ferro|atfluid

Suggested use

Dietary supplement of Iron, Vitamins, Royal Jelly and natural extracts.

Acerola extract performs a supporting and restorative action by helping the body's natural defenses; Iron, Folate and Vitamin B12 contribute to the normal formation of red blood cells and to the normal functioning of the immune system. Vitamins B (B12, Niacin, B2 and B6) and C are useful to help the normal functioning of the nervous system. Vitamin C also promotes the absorption of iron. The vitamin complex and the iron contained in Ferrolat Fluid contribute to the reduction of tiredness and fatigue. The formulation is also enriched with Royal Jelly.

Recommended dose

Kids: 5 ml per day; Adults: 10 ml per day. It is possible to double the recommended doses when needed. Shake before each use.

Warnings

Keep out of reach of children under three years of age. Do not exceed the recommended daily dose. Dietary supplements are not intended as substitutes of a varied, balanced diet and a healthy lifestyle. Avoid taking the product in case of presumed hypersensitivity to one or more of its ingredients. Always consult your doctor for use during pregnancy, lactation and under one year of age. It is recommended to use under the direct supervision of a doctor. Given the natural origin of the components, it is possible to have color variations from batch to batch. The possible presence of precipitate indicates the high concentration of the active ingredients and does not affect the quality of the product in any way
