

ferrolat

Suggested use

Dietary supplement of Iron, Lactoferrin, Quatrefolic and Vitamin C.

Thanks to the presence of iron, Quatrefolic, Lactoferrin and vitamin C, it can supplement these nutrients in the presence of nutritional deficiencies or increased organic requirements. Iron, folate and vitamin C contribute to the normal function of the immune system.

Recommended dose

A tablet preferably between meals, with a teaspoon of water

Ingredients:

Iron microencapsulated – SunActive (Iron pyrophosphate, Polyglycerol esters of fatty acids, Soy Lecithin, Sodium Chloride, Maltodextrin), Bulking agent: microcrystalline cellulose, gelatin, Lactoferrin, Ascorbic Acid (Vitamin C), anti-caking agent: Magnesium stearate; Quatrefolic (salt of glucosamine 5-methyltetrahydrofolate) Pigment: Titanium Dioxide.

GLUTEN FREE, SUGAR FREE

Package

20 tablets blister

Expiry date

36 months

Preservation

Store in a cool and dry place, away from light and heat.

Warnings

Keep out of reach of children under the age of three years. Do not exceed the dose Recommended daily. Dietary supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle.

Interactions

The derivatives of iron can reduce the absorption of tetracycline, so administer 2 hours before or 3 hours after taking any formulation based on iron.

Side effects

Hypersensitivity to one or more ingredients. Iron and ascorbic acid in high doses may cause gastric distress.

Pregnancy / Breastfeeding

Recommended under the direct control of the physician.
